As a passionate performer, Jeton is constantly driven by the desire to present a show that his audience and his client will never forget.

Based on his unique performances and his long experience in international show business, he is always in demand as a partner who will ensure that your event is a success. Jeton always puts together an individual show plan and a tailor-made offer. Here are some of the possibilities:

1. Variety Act: Jeton, the Gentleman Juggler (8 or 15 min.)

This act is one of the minor masterpieces of the international variety scene. It can be presented in numerous languages (including German, English, French and Japanese), and is therefore ideally suited to an international audience.

A non-verbal version is also available on request.

2. Solo Show: Jeton, an Artist of Many Parts (20 – 45 min.)

In this show, Monsieur Jeton is a gentleman, a juggler, a compere and an entertainer, all rolled into one. Impressive feats of skill, a keen sense of humour, emotional moments and Jeton's charming personality go together to provide cultivated entertainment.

3. Compering: Jeton, the thread that holds your programme together

The key to a successful event is the "common thread" running through it, the host who entertains and enthral as he guides your audience through the programme. As your charming compere, Jens Thorwächter-Jeton always strikes the right note – in German, English or French. As an elegant master of ceremonies, he sets the perfect scene for your event.

4. Comedy Magic: Jeton on stage and mingling with your guests

For many years, Jeton has also devoted his attention to the fascinating art of magic, and has developed not only an impressive repertoire of close-up tricks, but also a highly entertaining stage act. His sleight of hand and intelligent wit are certain to be a major talking point among your guests.

5. Customisation: Jeton for your special theme or product presentation

Presenting themes and projects is one of Jeton's specialities. He creates tailor-made tricks and shows that speak directly to your target group and make a lasting impression on them. His playful way of conveying information or turning the spotlight on a product ensures that it achieves maximum impact.
